

pyrite::stopwatch::stop

```
graph LR; A[pyrite::stopwatch::stop] --> B[pyrite::stopwatch::is_running]
```

A diagram illustrating a method call and its effect. On the left, a gray rectangular box contains the text `pyrite::stopwatch::stop`. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text `pyrite::stopwatch::is_running`, with `is_running` on a new line.

pyrite::stopwatch::  
is\_running
